FOR THE TRADE ONLY.

Wholesale Price List.

BURPEE'S

Garden, Farm, and Flower SEEDS.

W. ATLEE BURPEE & CO.,

Seed Growers and Merchants,

PHILADELPHIA, PA.,

U. S. A.

A SINGLE PLANT OF **CUPID**,—THE FIRST AND ONLY DWARF SWEET PEA.

"CUPID" can be had, *in our original sealed packets*, from leading seedsmen in both America and Europe at **$12.50 per 100 pkts.**, or half-size pkts. at **$7.50 per 100.** A lower rate will be quoted **by the thousand packets.**

Discounts TO THE TRADE From our Retail Prices.

Our retail catalogue—BURPEE'S FARM ANNUAL FOR 1896—has already been mailed to you, and as we frequently receive orders from the trade for small quantities from our retail catalogue, which cannot be invoiced at the low bulk prices quoted herein, we would state that such orders **are charged at the following rates of discount from our retail prices**:—

All Seeds in Packets,	50 per cent. discount.
500 PACKETS OR MORE AT 60 PER CENT. DISCOUNT.	
Seeds by the Ounce,	33⅓ per cent. discount.
Seeds by the Quart or Pint,	33⅓ " "
Seeds in Collections,	40 " "
Potatoes by the Pound,	40 " "
Bulbs in Collections,	20 " "
Roses and other Plants,	20 " "
Books on Garden Topics,	40 " "

At the above liberal rates of discount, the goods travel at expense of purchaser, and on seeds, etc., sent by mail, the cost of postage will be added to the invoice. ☞ The Books, however, will be sent by mail, when so desired, *without extra charge for postage.*

Address letters and telegrams plainly:—

SEED WAREHOUSES,

SEED GARDENS AND
TRIAL GROUNDS AT
FORDHOOK FARM,
DOYLESTOWN, PA.

475 and 477 North Fifth Street, and
476 and 478 York Avenue,
PHILADELPHIA, PA.

JANUARY 1, 1896.

To the Seed Trade:

You can buy seeds at almost any price you choose to pay, **BUT**——they are **not BURPEE'S SEEDS!**

We seek the trade of Dealers who appreciate the value of **First-class Seeds,** and supply at wholesale identically the same stocks as in our retail business, which is known to be **the largest of its kind in the world.**

Our prices are fair—as low as you can buy good seeds for—higher than you should pay for poor.

It is not their cost, number, how they are put up, or how advertised, that makes good seeds—it's what the seeds themselves are.

Kindly read pages 2 to 5 of THE FARM ANNUAL FOR 1896,—we think them worth a few moments of your time,—they tell how **we test all seeds.**

Our seed growing, seed testing, methods and plans are open to your investigation * at all times. You can see how **we know Seeds.**

Our best customers are those who know us best.

It is our business to raise THE BEST SEEDS THAT GROW—to send you just what we say we will.

Soliciting your esteemed orders, which will have careful attention,

We remain yours truly,

W. Atlee Burpee & Co.

Lock Box 1626. PHILADELPHIA, PA.

*AT OUR SEED GARDENS and Trial Grounds at FORDHOOK FARM.

TERMS OF SALE.

Terms of Credit.—To regular customers and well-known houses of established credit, all bills bought from this Catalogue are due June 1st, without regard to date of purchase. *All accounts are* **subject to sight draft** *on June 10th if payment is not received previously by mail.* Goods purchased after June 1st are payable on October 1st and subject to sight draft.

☞ Bills purchased *on special quotations*, made by letter, are due three months from date, or subject to a discount of one and a half per cent. for cash within ten days of date of invoice.

☞ **Grass and Clover Seeds, Onion Sets,** and **Seed Potatoes** in quantity are invariably **net Cash.**

☞ Unknown correspondents desiring credit are requested to give satisfactory reference in Philadelphia or New York.

Terms for Cash.—We will allow a discount of **Five per Cent.** on orders accompanied by a cash remittance, and also on all bills (at Catalogue prices) paid within ten days from date of invoice.

Shipping Instructions should be sent with each order, and will be followed carefully. Otherwise we will use our best judgment as to route.

The Prices Quoted are those ruling at this date. We expect to adhere to them throughout the spring, except in cases where important changes in the market compel us to advance or reduce our prices, when we will be governed by the market. **10 lbs. and over will be supplied at the rates per 100 lbs.**; ½ ℔ and ¼ bush. at the pound and bushel rates ; but *smaller quantities will be subject to a higher charge.*

Seeds by Mail.—When desired, small packages will be forwarded by mail at 8 cts. per pound, 15 cts. per quart, extra.

NO CHARGE for Boxes, Barrels, Packing, or Cartage. Bags are *Charged at Cost.* After delivering to forwarders in **good order** (as shown by Bill of Lading) our responsibility ceases. **Insurance** effected only when so directed.

WE DO NOT COMMISSION SEEDS.—In response to hundreds of inquiries each year, we would state that we **positively decline to send out any Seeds on Commission.** Dealers handling seeds in packets will be supplied on liberal terms, and by ordering judiciously, those left over can be destroyed, and the business yet be more profitable and satisfactory than the handling of commission seeds.

ELECTROTYPES.—Many of our customers purchase, for use in their catalogues, **Electrotypes** of the illustrations in our retail catalogue. While we do not make a business of selling electrotypes, yet the expense of engraving our original illustrations is so heavy that we must charge for the blocks at the rate of **30 cts. per square inch.** All orders for electrotypes are subject to our approval, and **in no case can we allow the use of our copyrighted engravings of varieties introduced by us to illustrate other varieties or to sell seed of doubtful purity.** ☞ We purpose to protect from pirates both our copyrighted illustrations and the matter in our **Retail Catalogues,** which is *copyrighted* both for the current year and for years past. We regret that this notice is necessary, but it will not affect any honorable, self-respecting house, and all who purchase seed of our novelties and specialties are entitled, of course, to copy our descriptions.

W. ATLEE BURPEE CO., Philadelphia, Pa.

Burpee's Vegetable Seeds.

TEN POUNDS OR MORE WILL BE CHARGED AT 100-POUND RATES.

☞ **A Telegraphic Cipher** (*or* **Cable Code**) *is attached to each variety, by which our customers can wire us their orders at very little expense. For example:—*

Freight Five Brame would mean:—Send immediately, by fast freight, five bushels of BURPEE'S BUSH LIMA BEANS.

Express Twelve Canopy would mean:—Send immediately, by express, twelve pounds of BURPEE'S ALLHEAD EARLY CABBAGE.

Mail One Plash would mean:—Send by mail, postpaid, to-day, one pound BURPEE'S RUBY KING PEPPER. If the word **Register** is used instead of *mail*, it would mean "Send by Registered Mail."

Telegrams should be addressed,

W. ATLEE BURPEE & CO., Philadelphia.

Our CABLE ADDRESS is BURPEE, Philadelphia.

ARTICHOKE.

	Tel. Cipher.	Per lb.	Per 100 lbs.

LETTUCE.

The best Lettuce Seed is grown in California, **BUT** there are growers *and* growers. A well-known seedsman,—one of the largest in the country,—came to us recently for a supply of Lettuce Seed, saying that he did not dare to use in his choice retail trade the seed he had received on contract from his grower in California, **BECAUSE** he had received **many complaints** from this grower's Lettuce Seed last year. We resist the tendency of "**Jobbers in Seeds**" to force prices down to a point where the growers **cannot afford to grow FIRST-CLASS SEED.**

MELONS. Growers generally recognize that we are **Headquarters for Melon Seed,** having for many years devoted special attention to growing the finest crops especially for seed. We never handle the "cheap seed," of which bushels are offered annually by market growers, who have saved it "*especially for seed*" (*!*) from the refuse melons, too late or unfit to market! Tons of this seed are sold annually—*it is lower priced than* **BURPEE'S SEED!**

MELON—MUSK.

NOTE.—Ten pounds or more will be supplied at 100-pound Rates.

☞ Trials at FORDHOOK FARM have shown that *foreign-grown seed* of AMERICAN ONIONS *is not trustworthy.* Sometimes in a favorable season it may bottom well, but again the same seed will run almost all to "stiff-necks" and scallions. For our own planting we would prefer to pay double the price for **Selected American-Grown ONION SEED,** and under no circumstances have we ever sold the foreign-grown seed as American,—**But** now it enters so largely into competition—*often falsely masquerading as home-grown seed*—that we have decided again to offer

FRENCH-GROWN Seed of AMERICAN ONIONS, *at a fair price, for just what it is,* **the best seed grown in FRANCE from American Stocks.** Consequently we have imported from the most reliable growers a supply which we offer of **YELLOW GLOBE DANVERS at 45 cents per pound, RED WETHERSFIELD at 60 cents per pound,** and **LARGE WHITE GLOBE at $1.00 per pound.** This seed is sold for **just what it is,—the Best imported,**—and is sold solely at the risk of the purchaser.

Our business is our pleasure, and it shall be our aim always to maintain and merit the prestige of our position. Recent improvements, both in our ware houses and on the farm, enable us to handle properly a still further increase in trade. To gain this we call attention to three reasons

why BURPEE'S seeds grow, and are the best that grow!

—*because* a sample of every lot of seed, whether grown by ourselves or grown for us under contract, is thoroughly tested in the greenhouses, and only those of satisfactory germinating power are sold.

—*because* not only are the crops carefully "*rogued*" during growth—with intelligent selection of stock seed—but their products also are compared thoroughly by careful field trials. Thousands of thorough tests are made each year at our famous FORDHOOK FARM, Doylestown, Pa., where a greater variety of grains, vegetables, and flowers are grown than anywhere else in America.

—*because* these field trials embrace not only our own stocks, but also those of other seedsmen and new varieties from all parts of the world. Thus we *know* seeds, and are absolutely sure that BURPEE'S SEEDS are the best that grow.

Of course, there are lower-priced seeds, but **none cheaper that are so good.** Good crops grow from good seeds. **We supply only the BEST.**

RADISH SEED.

Our Radish Seed is all the **best French-Grown,**—such as we have handled for twenty years. We could get seed much cheaper in England, and even in France, **BUT,**—the Best is none too good for our retail trade, and we supply dealers identically the same stocks we use in our own trade with the most critical Market Gardeners.

There are no better Seeds than BURPEE'S!

RADISH—Earliest Varieties.

TOMATO SEED. It is false economy to try to save on the first cost of Tomato Seed,—a little seed goes so far. And yet the country is almost "flooded" with *cheap Tomato Seed*, saved without any regard to selection and sometimes even the refuse of canning establishments. ☞ Our Tomatoes are *all grown especially for seed*, and largely by ourselves in Bucks County, Pa. This seed *actually costs us more than double* the prices at which we are offered annually so-called "pure seed cheap." "A word to the wise is sufficient."

A POT-PLANT OF CUPID. *The first and only Dwarf Sweet Pea.*

The First Dwarf Sweet Pea,—"CUPID"

Grows Only Five Inches High! The Floral Wonder of the Age!

CUPID has excited universal admiration from all who have seen it growing in America, and has *won the highest possible honors in Europe.* We had plants grown in pots exhibited at **The Royal Horticultural Society,** in Drill Hall, London, England, June 25, 1895, where, *by unanimous vote of the Committee,* it received **An Award of Merit,**—the highest honor that could be conferred upon a new variety.

CUPID was also exhibited, grown in pots, in Paris, France, on July 11th, at an exhibition of the **Société Nationale d'Horticulture,** where it also received *a first-class certificate* as a distinct novelty of surpassing merit.

☞ **Never before has any American novelty been introduced with such high endorsement.**

In regular size packets (each containing twenty seeds):—

Per pkt. 25 cts.; 5 pkts. for $1.00; per dozen pkts. $2.00.

Per 100 pkts. $12.50.

A lower rate will be quoted **by the thousand packets.**

In half-size packets (each containing ten seeds):—

Per pkt. 15 cts.; 2 pkts. for 25 cts.; or 10 pkts. for $1.00.

Per 100 pkts. $7.50.

A lower rate will be quoted **by the thousand packets.**

Electrotypes of any of the illustrations of "Cupid" will be furnished free to seedsmen for use in catalogues for 1896. The packets of **CUPID** are all uniform, and each bears an illustration and description, together with directions for culture in *English*, *French*, and *German.*

A list of special wholesale agents in Europe is given on **page 30.** All orders from North or South America should be addressed direct to **the Introducers,**

W. ATLEE BURPEE & CO., Philadelphia.

The Dwarf Sweet Pea,—CUPID.

According to the advance announcement of last year we now introduce CUPID—the greatest novelty in flowers ever known. We could fill many pages of our Catalogue with articles from both American and English journals as to its unique merits.

NEW DWARF SWEET PEA,—"CUPID." FLOWERS WHITE.

The above engraving, reduced in size, is an exact reproduction of an illustration in THE GARDENERS' CHRONICLE, *London, June 29, 1895, of one of the pot plants exhibited at the Royal Horticultural Society, June 25, 1895, where by unanimous vote we received an* **Award of Merit for CUPID,**—*the highest endorsement possible.*

The foliage is very dark green; blossoms pure waxy-white, of unequaled substance and full size. The plant does not grow over five inches high, and never more than twelve to fifteen inches in diameter. The stems are about four inches long, bearing two or three blossoms, all very near the end of the stem. It is a wonderfully free bloomer, and begins to flower as early as May and continues until October. The seed is white and of usual size.

Sold only in sealed packets; —a regular size packet contains 20 good seeds.

A DWARF SWEET PEA.

Sweet Peas have crept into the popular heart in a remarkable manner of late years. The most wonderful thus far is the CUPID, which has not been introduced yet, but is now growing in great luxuriance on the famous model seed-farm of W. ATLEE BURPEE, near Doylestown.

CUPID grows but five inches high, and yet this tiny plant is literally covered with perfectly-formed blossoms of the purest white. In the fields at FORDHOOK the rows look like beds of snow. This new Sweet Pea has excited the greatest interest among botanists and horticulturalists all over the world. It received an award of merit from the Royal Horticultural Society of England, and attracted great attention at the exhibition of the Société Nationale d'Horticulture in Paris last month.—*From* THE PHILADELPHIA INQUIRER, *August 25, 1895, accompanied by an illustration.*

Most unique is the novelty, CUPID, introduced by W. ATLEE BURPEE & Co. This is truly a dwarf, flowering when but five inches in height. It has already received a first-class premium from the National Horticultural Society of France, as well as a certificate of merit from the Royal Horticultural Society of London. That means very much, as those societies award for merit only, and are not particularly anxious to find good in the efforts of their American competitors.—*From* THE AMERICAN AGRICULTURIST, *New York, September 7, 1895.*

Sweet Pea,—CUPID.

Specimens submitted to us of the new Sweet Pea, CUPID, fully bear out the very high eulogiums already conferred on it by eminent authorities. A really dwarf Sweet Pea is a novelty indeed, and, as such, cannot be overlooked.

The habit of the plant is dwarf and compact, and does not exceed five inches in height; foliage dark green; the flower stems are about four inches long, and bear near the end of the stem two or three blossoms, pure waxy-white in color, of good substance, and fully as large as Emily Henderson. A wonderfully free bloomer, said to begin to flower as early as May, and so continue until November.

Our illustrations show a field of CUPID and a pot plant, both engraved from photographs, for which we are indebted to MESSRS. W. ATLEE BURPEE & Co., of FORDHOOK FARM, by whom it will be introduced to commerce in 1896.—*From* THE FLORISTS' EXCHANGE, *New York, August 17, 1895.*

Burpee's CUPID Sweet Pea surpasses the most sanguine expectations, and will be the great flower-seed novelty of next year.—*Editorial from* THE HORTICULTURAL TRADE JOURNAL, *August, 1895, in which also appeared, entirely unsolicited, a long descriptive article entitled* **"Burpee's Cupid Sweet Pea."**

New Sweet Pea, "CUPID."

The new dwarf Sweet Pea, CUPID, exhibited at the meeting of the Royal Horticultural Society on the 25th ult., is unquestionably one of the most distinct breaks that has yet been obtained in the Peas grown for the beauty and fragrance of their flowers, and is of much interest as the possible progenitor of a quite new race. It originated as a sport in 1893 with Mr. C. C. Morse, of California, who has placed the stock in the hands of Messrs. W. Atlee Burpee & Co., of Philadelphia. The plant has a procumbent habit and stout, short-joined haulm, which spreads on the surface of the soil and produces flowers at almost every joint, with the result that the plants, when in full bloom, are almost hidden by the large, pure white blossoms. When fully developed the height of the plants ranges from five to six inches, while under ordinary culture the rows are from twelve to fifteen inches through. The entire plant forms a mass of snowy whiteness, the growths hanging over the sides of the pots and forming a perfect plant not more than about six inches high. Its bushy habit is a great recommendation, as the plants spread over a considerable surface and make a most beautiful bed or border.—*From* THE GARDENERS' MAGAZINE, *London, Saturday, July 6, 1895.*

Cupid Hath Charms and Winneth Honors at Home and Abroad.

The new dwarf Sweet Pea, CUPID, brought out this year by W. Atlee Burpee, of this city, won honors and attracted much attention at the Sweet Pea Show just closed at Springfield, Mass. But, more than this, it has been awarded prime de premier classe by the *Société Nationale d'Horticulture de France*, which is to say, has received a first-class certificate in the best of company. CUPID is being grown for seed in California. The plant is about five inches high and twelve inches in diameter. The stems are about four inches long, with two or three blooms all very near the end of the stem. The foliage is dark green, the blossoms of pure white.—*From the* PUBLIC LEDGER, *Philadelphia, Wednesday Morning, August 14, 1895.*

FORDHOOK'S VISITORS

Farmers and Others Inspect a Great Institution.

GUESTS OF MESSRS. BURPEE & CO.

A Day Spent on the Great Seed Farm Near Doylestown—Many Acres Under Cultivation—Seeds Are Carefully Tested—Fordhook a School.

[Under the above heading THE DAILY REPUBLICAN, Doylestown, Thursday, August 22, 1895, devoted its first three columns to a report of our annual "Farmers' Picnic,"—from which we quote the following extract.]

It would not do to leave Fordhook without reference to one or two novelties in the way of flowers. Chief among them is the unique dwarf Sweet Pea, CUPID. This is said to be the greatest novelty in flowers ever known. It grows only five inches high, and is the only dwarf Sweet Pea ever known. The foliage is very dark green; blossom pure, waxy white, and fully as large as the "Emily Henderson" Sweet Pea. The stems are about four inches long, bearing two or three blossoms, all very near the end of the stem.

It is a free bloomer and begins to flower as early as May and continues until November. This was the Sweet Pea that won the first award at the recent exhibit of the Royal Horticultural Society of London, and the *prime de premier* of the National Society at Paris. The visitors on Wednesday were delighted with the CUPID. The "Blanche Burpee," the finest white Sweet Pea in cultivation, bearing enormous flowers, is also a favorite with Burpee & Co.'s customers.

Among the floral novelties grown at W. Atlee Burpee's Fordhook Seed Farm is one which promises to meet with great favor when placed upon the market. It is a dwarf Sweet Pea, growing only five inches high, and because of its freshness and diminutive size has been styled CUPID. It has been exhibited at the Royal Horticultural Society's Show, in London, and received the highest award. CUPID will be "at home" on Wednesdays in August, at FORDHOOK, where all visitors wishing to make his acquaintance can do so.—*From* DOYLESTOWN DAILY INTELLIGENCER, *Thursday, July 11, 1895.*

CUPID Headquarters in Europe.

In order to accommodate the Seed Trade in Europe we have appointed the following well-known firms **Special Wholesale AGENTS.** These houses will supply seed of CUPID, in original packets, on the same terms as if the orders were sent direct to us, and will also furnish electrotypes for catalogue use.

Sole Wholesale Agents for Great Britain, Australian Colonies, and India:—

Messrs. HURST & SON, 152, Houndsditch, London.

Sole Wholesale Agents for France, Belgium, Spain, Portugal, and Italy:—

Messrs. VILMORIN-ANDRIEUX & CO., Paris, France.

*** Wholesale Agents for Germany, Holland, Austria, Russia, Denmark, Norway, and Sweden:—**

Mr. ERNST BENARY, Messrs. DIPPE BROS., HAAGE & SCHMIDT, HENRI METTE, MARTIN GRASHOFF, FREDK. ROEMER, and DAVID SACHS.

Each firm named above has **a complete set of electrotypes** and is authorized to quote *special prices by the thousand packets.*

All orders from America (and Foreign Countries not named above) should be addressed to the Introducers,

W. ATLEE BURPEE & CO., Philadelphia, Pa.

---

* In the case of the seven wholesale agents named for Germany, Holland, Austria, Russia, and Scandinavia, it is expected that seedsmen of these countries will procure supplies of CUPID from the house with whom they are accustomed to deal.

SWEET PEAS.

Fashion's Fragrant, Favorite Flower.
Largest and Finest Collection in the World.

For years we have made **a Specialty of SWEET PEAS,** and are now Headquarters for the seed. **We have the largest and most complete collection in the world to-day,** as can be seen by comparison of seed catalogues. By the publication of two books on Sweet Peas, of which we have distributed *more than one hundred thousand copies*, and by offering each year a special collection at a nominal price (Seven Superb Sweet Peas for 25 cents—*see page 33*) we have probably done more than the combined efforts of all other seedsmen in America to make **SWEET PEAS the People's Flower.**

The great novelty of last year was BLANCHE BURPEE, which MR. ECKFORD pronounced *by far the finest Sweet Pea ever produced.* We are now unusually fortunate in being able to offer FIVE GRAND NOVELTIES FOR 1896, shown in the Colored Plate in BURPEE'S FARM ANNUAL FOR 1896, *all of which can be had only direct from us.* The year **1896** will long be remembered in the annals of horticulture as witnessing the introduction of the greatest novelty in flowers ever known,—CUPID, the unique dwarf Sweet Pea. For this "floral wonder" we received the highest possible awards from both *The Royal Horticultural Society*, of England, and *The Société Nationale d'Horticulture*, of France.

NEW GIANT WHITE SWEET PEA.

"The Finest of all Sweet Peas."—HENRY ECKFORD.

BLANCHE BURPEE is a **pure white** of most exquisite form and **immense size,** having a bold, rigid, upright, shell-shaped standard of great substance, and a wonderfully free bloomer.

Wholesale, per lb. $4.00; 10 lbs. at $3.50 per lb.

BLANCHE BURPEE SWEET PEA.

This superb new white variety must be regarded as the finest of all the white Sweet Peas, beating even the famous "Emily Henderson" in form and size, and is of a pure white color. It was raised at Wem some six or seven years since by Mr. Eckford, and was named subsequently BLANCHE BURPEE. Mr. Burpee is an eminent American horticulturist, and has taken great interest in Mr. Eckford's fine Sweet Peas, and is introducing them to a considerable extent in the United States. I have repeatedly seen the variety in flower at Wem and at various exhibitions, and compared it with existing varieties, and in its grand, well-formed, stout standard its great excellence is particularly seen.—*From* THE GARDENERS' MAGAZINE, *London, England, November 24, 1894, prior to introduction in 1895 of Eckford's New Giant White,*—BLANCHE BURPEE.

TEN NEW SWEET PEAS.

For 75 Cts. we will mail one full-size packet each of the **Ten Rare NEW SWEET PEAS** described below,—all catalogued for the first time this year,—**NOVELTIES of Unusual Beauty.**

DAYBREAK. *See illustration.* This is the first and only Novelty ever put out by the REV. W. T. HUTCHINS, the great American specialist, and *the seed can only be had direct from us.* It is a most beautiful variety, giving a fine, crimson-scarlet, watered effect. For full description see back of *Colored Plate, page 120* of THE FARM ANNUAL FOR 1896. Per pkt. 15 cts.

DUCHESS OF YORK. One of Eckford's best novelties. Flowers of the largest size and most distinct in color; white suffused with delicate pinkish-purple, producing a striped and barred effect. Largest expanded form; one of the earliest to bloom. Pkt. 10 cts.

DUKE OF YORK. Standards bright rosy-pink, with a tint of primrose; wings primrose, tinted white. The full effect of the color combination is very beautiful. Per pkt. 10 cts.

ELIZA ECKFORD. Standards a very pretty hue of rose, the back of each being flaked with deeper rose; wings delicately striped with rose. Per pkt. 10 cts.

GRAY FRIAR. Our own Novelty for 1896. *See Colored Plate, page 119* of THE FARM ANNUAL. Unlike any other Sweet Pea in cultivation; flowers of very large size, decidedly *gray* in color. Per pkt. 15 cts.

METEOR. Standards bright orange-salmon, wings delicate pink with slight veins of purple. Per pkt. 10 cts.

MRS. JOS. CHAMBERLAIN. The flowers are truly enormous; the color is very effective, the whole flower having a white ground, which is heavily striped and flaked with bright rose. Per pkt. 10 cts.

NOVELTY. Standards bright orange-rose, wings delicate mauve, slightly margined with rose. Very pretty and distinct. Per pkt. 10 cts.

RAMONA. Perhaps the largest-flowered and grandest of the *Five New Sweet Peas now exclusively introduced by us*, and shown on the Colored Plate, page 119 of THE FARM ANNUAL. Its grand, large flowers are of a creamy-white, daintily splashed with pale pink. Per pkt. 15 cts.

NEW DOUBLE SWEET PEAS, Finest Mixed. For the reasons plainly stated on page 125 of BURPEE'S FARM ANNUAL, we cannot thoroughly approve of THE DOUBLE SWEET PEAS. *We have as good a strain as any in the world to-day*, and offer **Seven Varieties Double Sweet Peas, Finest Mixed.** Per pkt. 10 cts.

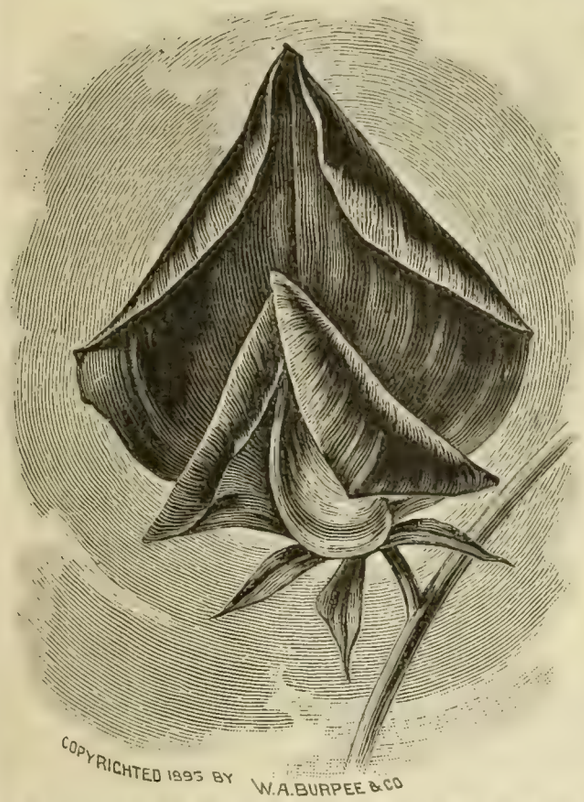
☞ All of the above **Ten New Sweet Peas,** one full-size packet of each, for **75 cts.,** or three of these Novelty Collections for $2.00, by mail, postpaid, to any address.

Above is a copy of our retail advertisement of a choice collection entitled **"SWEET PEAS for the Ten Thousand."** All these ten **NOVELTIES are offered for the first time this season.** At retail prices per packet (as given above) the ten would cost $1.15, but the complete collection, as announced, is sold for **75 cts., retail.**

WHOLESALE we will supply these **NOVELTY COLLECTIONS at a discount of 40 per cent.,**—that is, **45 cts. a collection,** or **$40.00 per 100 collections.** Not less than 25 collections will be invoiced at the rate per 100 collections.

SWEET PEAS.

Every American garden should have the best NEW SWEET PEAS in 1896. By keeping **Purity** and **High Quality**, rather than low prices, our first aim, we are now **HEADQUARTERS for SWEET PEAS.**



25 Cts. buys these Seven Superb Sweet Peas:

BLANCHE BURPEE. Eckford's "*finest of all Sweet Peas.*" Pure white flowers of immense size; three and four on a stem. Award of Merit, R. H. S., 1895.

DOROTHY TENNANT. Flowers of large, expanded form; a deep rosy-mauve with wings of bluish-mauve.

LADY PENZANCE. Superb flowers of large size and exquisite color; beautiful laced pink, touching orange.

NEW LOTTIE ECKFORD. Remarkably beautiful, large flowers; white, edged and suffused with lavender-blue.

ROYAL ROBE. The largest and *best soft pink;* a lovely flower of exquisite beauty.

STANLEY. The flowers are produced abundantly in fours on long stems and are of a rich, dark maroon. Exceptionally fine for bouquets. *See illustration.*

SPECIAL SUPERFINE MIXED. *This mixture contains only the* **very best Eckford Sweet Peas.** It is a choice blending of seventeen large-flowered new named varieties.

The Seven Superb Sweet Peas named above, in same sized packets, would have cost $1.00 in 1895, but are now sold for 25 cents.

"JUST HOW TO GROW SWEET PEAS; FULL DIRECTIONS BY AN EXPERT," is enclosed with this collection.

W. ATLEE BURPEE & CO., Philadelphia, Pa.

☞ We will spend **thousands of dollars** in advertising the above Collection of **Seven Superb Sweet Peas for 25 cts.** ☞ These collections *sell on sight* and should be displayed on the counter in connection with our beautiful **Lithographed Hanger of Sweet Peas.**

Our wholesale price is **15 cts. per Collection,** or **100 Collections for $13.50, Cash,** when not less than fifty Collections are ordered at one time.

At the same prices, we also supply Dealers with **Burpee's GEM Collection** described on page 131 of THE FARM ANNUAL FOR 1896, and also "**The Latest Fashions in Pansies,**" as enumerated on page 163.

BURPEE'S GENERAL LIST

OF

FLOWER SEEDS.

One-quarter pound furnished at pound rates, and one-quarter ounce at ounce rates, where not less than sixty cents per ounce; of the cheaper flower seeds, not less than one-half ounce will be supplied at ounce rates. The trade packets offered contain from five to ten times as much seed as our retail packets. Where the price is given per 100 packets, the variety is sold only in our usual retail packets.

These flower seeds are all of the finest strains of the best varieties, and are sure to give satisfaction. While many are grown by ourselves at Fordhook Farm, or by our private growers in America, all are thoroughly tested both for vitality and purity at Fordhook Farm. Those that are imported are obtained only from the best growers in Europe, whose gardens we have repeatedly inspected. The whole makes a collection unexcelled in uniform excellence of quality and vastly superior to the commercial grades commonly sold. It is generally admitted that we grow a larger area of Flower Seeds, and test all varieties more thoroughly on our own grounds, than do any other American seedsmen.

We have Thirty-two Thousand Pounds of the

Best SWEET PEAS.

The Choicest and Most Complete Collection in the World!

We were the first Seedsmen in America to recognize the importance of the recent marvelous improvements in Sweet Peas. By hundreds of thorough trials at FORDHOOK FARM we have learned **to know SWEET PEAS** and the relative value of all the different novelties as introduced. By keeping **Purity** and **High Quality,** rather than low prices, our first consideration, we have become recognized as

Headquarters for Sweet Peas in America.

In the following three pages we enumerate our **Unequaled Collection of Ninety-five named varieties.** Each is *pure* and *true to name,*—vastly superior to the "Cheap Seed" now so largely grown, without proper care in the constant selection that is *absolutely necessary to maintain first-class strains.*

	Per oz.	Per lb.

Burpee's New Box of Flower Seeds.

THIS box of **CHOICE FLOWER SEEDS**, put up in a neat and attractive style, **with illustration and directions for culture** printed on each packet, contains the same **fine quality of fresh seed** as supplied to our own critical retail trade. Dealers, having had frequent complaints from the flower seeds usually sold, will now find this a pleasing and profitable department of their business. The selection embraces the most popular and quick-selling varieties.

In all, 175 Packets of Flower Seeds.

30 varieties, five packets of each, making a total of 150 packets, at 5 cts., $7.50
5 varieties, five packets of each, in all 25 packets, at 10 cts., . . . 2.50

TOTAL RETAIL VALUE, $10 00

Wholesale Price to the Trade, $4.00 for the Box complete.

It can be sent by mail for 15 cts. additional.

We do not commission Seeds, but offer such facilities and increased profits that dealers will find our plan more satisfactory to themselves and their customers.

FORDHOOK GIGANTIC TUBEROUS-ROOTED BEGONIA.

Burpee's Gem Collection for 1896.

TEN PACKETS BEAUTIFUL FLOWERS FOR 25 CENTS.

To beautify home surroundings it is not necessary to go to great expense or labor. So little as **Twenty-five Cents** will buy **ten varieties of beautiful hardy Annuals,** such as will grow and thrive everywhere. In order to extend the love for flowers we have each season, for many years past, grown certain choice varieties in large areas, so as to be able to prepare this **GEM COLLECTION.** We try to improve each season, and for 1896 offer—

For 25 Cts. **one packet each of all the following: AMARANTHUS, New Coleus-Leaved; ASTERS, Fordhook Favorites,** a special mixture of the finest varieties; **BALSAM, Burpee's Defiance,** an unequaled mixture; **HELIANTHUS, Dwarf Multiflora,** the most beautiful new Sunflower; **MIGNONETTE, Giant Gabrielle; NASTURTIUMS, Fordhook Finest,** including the new hybrids of *Madame Gunter;* **Three New PANSIES,** Kaiser Frederick, Meteor, and Peacock; **Three Largest-Flowering New PETUNIAS,** Burpee's Defiance, Giant Emperor, and Giants of California; **New Hortensiæflora PHLOX,** with hydrangea-like flower clusters, and **RICINUS Zanzibarensis,** the new Gigantic Castor-Oil Bean from Africa.

NEW AMARANTHUS,—COLEUS-LEAVED.

TWENTY-FIVE CENTS buys the ten varieties as above, with illustration and directions for culture printed on each packet. **Five Complete Collections mailed for One Dollar, BUT** *in this case we cannot afford* to allow the purchaser to select any of the extra premiums offered on page 6 of THE FARM ANNUAL for 1896.

This idea is original with us, and in the past twenty years we have thus induced thousands **to begin** the culture of BEAUTIFUL FLOWERS FROM SEED. The offer certainly gives "**much for little,**" but **not** "*something for nothing,*" as announced in some sensational advertisements. In every case the **quality is first-class,**—identically the same as if the seeds were purchased separately at the regular prices of ten and fifteen cents per packet.

REGISTERED WAB TRADE MARK

Above is a condensed copy of our advertisement of **BURPEE'S GEM COLLECTION FOR 1896.** To dealers in seeds we will supply these Collections **WHOLESALE at 15 cts. each, or $13.50 per 100.**

BURPEE'S BUSH LIMA.

"THE MOST REMARKABLE OF NEW VEGETABLES."

The First and Only DWARF LARGE LIMA BEAN.

BURPEE'S BUSH LIMA.

This illustration was accurately engraved from a Photograph of the Bush winning THE NATIONAL PRIZE *in 1893 and bearing* 358 *pods. On the first prize bush in 1894 we counted* 439 *pods.*

358 *pods were borne upon this bush.*

"Upon our grounds this has been the best variety of Dwarf Lima."—PROF. L. H. BAILEY, *Cornell University.*

BURPEE'S BUSH LIMA.

REGISTERED VAB TRADE MARK

Never in the history of the seed trade has any variety created such a profound sensation as this,—"the most remarkable of new vegetables;" the **only** bush form of the **True** delicious **Large Lima.** It is pronounced by all good judges as unquestionably **The Real Bush Lima,** distinct and superior in every way,—in its splendidly vigorous, upright, bushy habit of growth, great uniformity and trueness to type, and bearing the luscious **large Lima beans in great abundance.** There is absolutely nothing to compare with it. The largest Lima Beans can now be raised in quantity at small cost, without the expense and labor attached to the use of poles.

THE FOUR BUSH LIMAS. Note the comparative size of Beans.
